

TS

TIRTA SURYA BUANA

INFORMATICS STUDENT | [PORTFOLIO](#)

OBJECTIVE

An Informatics student deeply passionate about transforming data into intelligent solutions. I specialize in developing and deploying Machine Learning and Deep Learning models, with hands-on experience in computer vision, predictive analytics, and cluster analysis for data-driven insights. I thrive on solving complex problems from architectural design to optimizing model performance. As an aspiring AI Engineer, I am eager to contribute to innovative projects and collaborate with teams to build scalable, real-world AI applications.

EXPERIENCE

AI DEVELOPER (TEAM PROJECT) • FRUIT & VEGETABLE CLASSIFICATION WEB

- Collaborated with a team to build an AI-integrated web application.
- Developed a classification feature to identify and determine whether fruits and vegetables are still fit for consumption based on image data.

MOBILE APP DEVELOPER (INDEPENDENT PROJECT) • DIGITAL TOP-UP MARKETPLACE

- Created a marketplace application for Android devices.
- Implemented features facilitating various online digital transactions, including mobile phone credit, electricity tokens, and game top-ups.

GAME DEVELOPER (TEAM PROJECT) • 2D PIXEL GAME

- Designed and developed an interactive 2D pixel game utilizing the Unity game engine.

EDUCATION

BACHELOR'S OF INFORMATICS • 2023 – PRESENT • UNIVERSITAS SULTAN AGENG TIRTAYASA

- Currently an active student in Semester 6.
- Current GPA: 3.79.

HIGH SCHOOL DIPLOMA • GRADUATED 2022 • SMAN 1 CIKANDE

Completed high school education prior to pursuing a bachelor's degree.

SKILLS

Programming Languages:

- Python (Proficient)
- C
- C++
- PHP
- JavaScript
- Dart.

AI:

- Machine Learning
- Deep Learning

Software Development:

- Web Development
- Android App Development
- Game Development using Unity.

CERTIFICATIONS & TRAINING

AI ENGINEER • DICODING INDONESIA • 2026

Completed the "University Mandatory AI Engineer" learning path, acquiring multiple verified certifications, including:

- Building Advanced Deep Learning Projects
- Fundamental Deep Learning
- Machine Learning for Beginners
- Basic AI & Python Programming

LEARNING ML, DL & PYTHON • UDEMY • 2026

- Completed a comprehensive global certification covering end-to-end Machine Learning, Deep Learning, and Artificial Intelligence concepts.
- Gained practical, hands-on experience in building AI models utilizing Python.

WEB DESIGN WITH WORDPRESS • PRAKERJA • 2023

- Completed a training program on web design using WordPress.
- Graduated with a good predicate, demonstrating practical skills in basic web development and content management systems.

VOLUNTEER EXPERIENCE OR LEADERSHIP

COMMITTEE MEMBER • WEBINAR "CAREER PATHS IN THE TECH INDUSTRY" • 2023

- Served as an active committee member for a university-level webinar titled "Career Paths in the Technology Industry: Opportunities and Challenges" at Universitas Sultan Ageng Tirtayasa.
- Collaborated with the Informatics Study Program team to organize, prepare, and ensure the successful execution of the educational event.
